

The **Daisy Fields Company | EatRight-LiveWell™ real money referral program** works for people to unravel poor health with nutrition at the root. The human body is fueled by food as foundational. Physiological stress relief is also at the core of the human body's ability to receive the benefit of great nutrition and so much more. This is our expertise!

We merge truly bio-individual nutrition for the body and brain for a simply, satisfying, and sustainable means to improve health and wellness.

In the over-processed food system and marketing dominated media and food labeling, it is confusing for people to know precisely what they should be eating to support their body and brain to take great care of their health.

When you hear someone complain about poor health any way shape or form, consider referring them to us for guidance. We have been helping people via functional nutritional therapy since 2015.

You will see testimonials from clients over the years here <https://www.TamJohn.com/live-well-nutrition-reviews> and throughout our website.

To encourage you to encourage your people to ask us how we can help them we are offering a real money referral program.

How it works:

1. **Mention to anyone with a health complaint that you know Tam is a Functional Nutritional Therapy Practitioner who has been helping people many years with an individualized process to help people by changing their food. Seriously – we are eating anyway so why not make it work for us! You are not endorsing us although kind words are naturally appreciated. They will be able to thoroughly vet us out.**
2. **The first step is for the person with a health complaint to book an Insight Call via the web. <https://www.TamJohn.com> This call is NOT SALESY. This is a chance for Tam to hear them speak about their health puzzle and offer a personalized solution. i.e. testing isn't necessary for everyone; some people may only want a test and brief consultation. Others might just want to add in Biomat® and BioAcoustic Mat™. Someone else may only want ionized alkaline water to begin. Our expertise is evolving nice and easy sustainable (no depriving diets) truly bio-individual nutrition guidance based on food first.**
3. **Please [send us their name](#). We will NOT reach out to them first nor do we want their contact info from you. We ask all Insight Callers how they heard of us. They must mention you in this Insight Call, and you must send me their name ahead of the call to receive the referral credit (I need your email to communicate and pay out the referral). You can say something like I mentioned you to {this person/first name is fine} and maybe they will connect with you.**
4. **Once they are a client (they must engage the series of meetings or testing recommended, we (through Daisy Fields Company dba EatRight-LiveWell™) will email you to thank you for the new client referral. To keep bookkeeping practices sound, please [email us a statement](#) (a simple email to link the payment mentioning the referral name, not fancy just for bookkeeping) that**

includes where you would like the PayPal sent (email associated with your account). If you don't use PayPal [contact us](#) for options.

5. The company will compensate you for the new client referral within two weeks of their engagement as a client. They must be paid in full as a client to receive the referral. This is subject to change at our full discretion, but we really love paying referral rewards because we are professionally passionate about helping lots of people. The referral for clients who engage a 10 week nutrition transformation/Eat Right – Food for Life™ is \$150. The referral for clients who purchase a 70 or 77 gene nutrigenomic test is \$50. The referral for clients who do Hair Tissue Mineral Analysis is \$25.
6. There is no limit to referral payments. In a calendar year, any dollar paid over 599.00 requires a W9 completed. To be clear, not one dollar will be paid after 599 dollars are paid in a calendar year unless a W9 is complete and received. In accordance with IRS rules, those above payments at \$600 will receive a 1099 the following January.

This is a wonderful way to help people. This works great for people with their healthcare and for self-care. No matter what, the human body thrives on food that is agreeable for each person. It's our mission and expertise to provide individuals and groups with this guidance for remarkable improvements aligned for their health wishes. Thank you for being a partner in health!
