Compliments of Daisy Fields Company dba EatRight-LiveWell™

Welcome to the world of dreams turned into reality. In this article, we explore the transformative history of Richway International, a company that has been powering individuals to build health and wealth since 1997. With a track record of success and a commitment to empowering its clients and distributors, Richway International has become a trusted name in the worldwide health and wellness industry.

Through a range of innovative products, Richway International has unlocked the secret to living well with this breakthrough in medical technology. Whether you're a doctor or health practitioner; or individual seeking a true means to rest and relaxation, with better health and well-being, Richway International offers an avenue to help others to help themselves naturally and financially.

This powerful statement from [Richway: The Name You Can Trust!](#) embodies the essence of Richway International's offers for its team and customers.

“We believe that people must be healed from their wounds,

Renewed in spirit,

Restored from illness,

Enlightened from ignorance and saved from pain.

No one should be left behind.

Our beauty does not lie in our appearance,

But in our passion of caring for others.”

Over the last 20 years, Biomat has been the leading therapeutic grade far-infrared mat highly regarded by health care professionals, fitness coaches and wellness advocates worldwide.

In a world dominated by stress, Biomat and other Richway International products are a peaceful sanctuary to escape and rejuvenate from daily life.

What the experts say

[According to Johns Hopkins Medicine](#) “You might attribute a painful neck or a backache to tired muscles or stiff joints. But these symptoms can also be caused by a part of your body you probably haven’t heard of, the fascia.”

Hopkins Medicine goes on to say, “Fascia is a thin casing of connective tissue that surrounds and holds every organ, blood vessel, bone, nerve fiber and muscle in place. The tissue does more than provide internal structure; fascia has nerves that make it almost as sensitive as skin.’

Johns Hopkins Medicine recommends heat therapy as part of a regimen to loosen painful knots and fascia tension.

Biomat® is effective heat therapy because it penetrates six plus inches into tissues. [View the images](#) depicting the improvement in circulation using Biomat.

A randomized, double-blind, placebo-controlled trial was conducted at Rothbart Pain Management Clinic in Ontario to test the effectiveness of pain relief obtained by applying infrared energy to the lower backs of patients with chronic, intractable low back pain. The study demonstrated a 50% reduction in chronic back pain over six weeks.

STRESS REDUCTION BY 78% IN DOCTOR STUDY WITH REGULAR BIOMAT® USE.

Dr. Grant’s independent study resulted in a 78% reduction in stress measured by Heart Rate Variability/HRV, blood serum cortisol, and biofeedback brain scans. [Study copies available](#)

Imitation may be the best form of flattery, but buyers should beware of fakes.

When it comes to what you expose yourself to, you want the best quality, and not a fake or impersonator. Research has shown that copycats take information from BioMat websites and modify it to represent a like product. Those fakes have included heating pads that look like a BioMat, but do not have any of the scientific rigor authentic Richway International products offer. They are flimsy, synthetic and do not perform. Simply, those impersonating products do not perform the same as our genuine products.
